RACE FOR ROAD TO CONSTANTINOPLE HAS REACHED EXCITING STAGE

Bulgarians Within Few Miles of Junction With Their Austro-German Allies, While French Join Serbians.

ALLIES NOT YET ABLE TO ASSUME OFFENSIVE

When Teutons Form Junction With Bulgarians Real Situation of Serbian Defenders Will Develop Quickly.

(By Evening Herald Leased Wire) London, Oct. 26 (UPI)—The race for the road to Constantinople has reached an exciting stage. The Bulgarians are within a few miles of forming a junction with their Austro-German allies, while the French are still some distance from the Roman border.

The French are not yet in sufficient numbers or assume an offensive in Macedonia, but the rapidity of the Bulgarian advance in that region already has diminished. Along the old Bulgarian frontier, from a point northeast of Vranya to the Romanian corner, the serbians are yielding little ground.

A actual junction between the Bulgarians and their allies, which may be a matter of only a few hours, will soon show whether the serbians are able to hold their mountain positions until the entente allies bring up strong forces.

Italy is still hammering away at the Austrian front, which is shaken and unknown.

Russia, at the southern defense of Riga and Pernau, and her continued offensive in Galicia, is keeping her opponents much engaged along the whole eastern front. In the west there is evidence that the serbians are again preparing for an offensive which may prevent the Germans

MORGAN ADMITTED INVESTIGATION OF HE'D BEEN USED AS 'DOORMAT' UNDER WAY

Charles S. Mellen Tells How He Held on as Vice President of New Haven When Enemies Sought His Scalp.

(By Evening Herald Leased Wire) New York, Oct. 26—Evidence presented by the government today at trial of the eleven New York, New Haven and Hartford railroad directors to prove the steps alleged have been taken in the New Haven to prevent New England traffic from passing over any other route than the New Haven, furnished Charles S. Mellen an opportunity to tell the jury how he saved himself from being ousted as second vice president of the road by the late J. P. Morgan.

Trouble had arisen between the New York Central and the New Haven over traffic, and C. E. Clark, then president of the New Haven, told Mr. Mellen that Mr. Morgan, who was a director of both roads, thought he had favored the latter.

"As I always did," said the witness, "I marched down to Mr. Morgan's office. I told him what Mr. Clark had said, and he said: 'That is correct.' I said: 'I know he was the kind of a man that would bear both sides, and he would certainly, certainly,' Then I explained the situation to him and Mr. Morgan said: 'I never understood it before. Mr. Mellen, I have been used as a doormat.' Troublesome, good day."

The result of this interview was precipitated by the introduction of a post-war letter sent by Mr. Mellen in the early nineties to the New Haven directors proposing a readjustment of rates under which through traffic which had formerly gone from central New England by way of Boston and Albany, was diverted to the New Haven as soon had to New York. This action was taken at the New Haven's insistence, in retaliation for the alleged failure of the New York Central to live up to an agreement designed to prevent the New York and New England railroad, the New Haven's chief competitor, from getting into New York over a line controlled by the central.

"This resulted," said Attorney Swacker for the government, "in the annihilation of the New England."

GRAVE CHARGES OF GRAFTING IN ARMY AVIATION SCHOOL

(By Evening Herald Leased Wire) San Francisco, Oct. 26—Official was introduced today at the court martial of Lieutenant Colonel Edward E. Cowan, charged with insuring charlatans Captain Arthur S. Cowan, to show that Captain Cowan knew the created joy as an aviator which was not one and improved such joy in another similar case. The hearing was resumed today after a delay of ten days to obtain the defendant.

Many of the plaintiffs are men and women who have been dwelling in San Francisco for years past on the 7,500 acres thrown open to settlement, awaiting an opportunity to be claimed. Their time and what labor they have expended on the lands will go for nothing, it was stated.

Attorneys representing them declared a deluge of contracts would follow.

KANSAS CITY, KANSAS, LANDS HARD ON ILLICIT BEER VANS

(By Evening Herald Leased Wire) Kansas City, Mo., Oct. 26—Drastic action by officials of Kansas City, to prohibit illegal sale of beer, was taken today. William Green, who was arrested, sentenced to jail and the beer and trucks confiscated. The drivers were fined \$10 each and given six months in jail.

More than 100 cases of beer were destroyed.

The action was taken, it was said, because of numerous court delays in the city's effort to get a decision from the supreme court on the validity of the delivery of beer in Kansas City. Captain Cowan knew of the reports but did not correct them. He and his weekly papers showed that Francis Windham, a civilian aviator, was the pilot on the visit and that he was a passenger. A letter concerning the flight was introduced, in which Captain Cowan informed Lieutenant Col. Robert of the visit without mentioning that Windham was the pilot.

AUSTRIA-HUNGARY FIRST EUROPEAN NATION TO GIVE RECOGNITION TO CARRANZA

New Government of Mexico Receives Formal Notification at Torreon Today of Action at Vienna.

WASHINGTON THINKS OUTLOOK PROMISING

Reports Indicate People Rapidly Falling Into Line With Carranza Plans and Expressing Intent to Be Good.

(By Evening Herald Leased Wire) Torreon, Mex., Oct. 26.—Austria-Hungary was the first European nation to recognize the government of General Venustiano Carranza. Notification of this recognition was received today in a note to the American chargé d'affaires in Mexico City. General Carranza continued his conference today with his military advisers and others, arranging details of government in this part of the country. He probably will remain here for another two or three days.

Washington, Oct. 26.—Early recognition by many of the European powers of the Carranza government in Mexico, it was believed here today was now assured as the result of optimistic reports concerning the situation in the southern republic.

Official reports to the state department, made public by Secretary Lansing, showed marked improvement in conditions throughout Mexico. It was said there had been improvement in both train and telegraphic services; that a more peaceful feeling was prevalent; that friendliness for foreigners was more evident and that rains and favorable weather in some sections have made prospects for certain crops brighter.

The situation was outlined by Secretary Lansing to the Russian ambassador, who sought information, with a view, it is thought, to possible recognition by his government. Similar inquiries had previously been made by the British and French ambassadors.
